To Whom It May Concern:

Reference letter for Benoit Paquet

I have known Benoit Paquet for over two years. We previously worked together for the Aquilini Group of Companies. I was the controller of Tri Power Developments LP while Benoit was the President of Aquilini Construction Company. Our main interaction was in regard to operations and cost control activities of Aquilini Construction which at the time was involved in the construction of major multi-use commercial residential developments along with an industrial facility construction in and around Vancouver, British Columbia. We also worked very closely together on the development side of the Groups projects specifically on financing, sales and closing issues.

Benoit came to the Group during a very difficult period; we were having trouble with a current project and struggling to get another major project started. Benoit took responsibility for the work at hand and set out to build a team of people to meet the challenges ahead of us. He provided organization and leadership and used a very hands-on approach to set the stage for the success of our efforts. Benoit's strongest assets are his willingness to take on responsibility to share that responsibility among the team he leads and to organize and plan for the task ahead.

I enjoyed working with Benoit and I appreciated and valued the assistance that he provided me in my job as Controller of Tri Power Developments LP.

If you have any questions concerning my work experience with Benoit please do not hesitate to contact me.
